### IMPORTANT NOTES

**RESTRICTION ON BAIL** - Although originally piloted in only a small number of areas, from 31 March 2006, RoB was extended to all Local Justice areas in England (not limited to the DIP intensive areas) meaning that any adult defendant brought before a court in England with a positive drug test could have the provision applied to them, regardless of where they live in England.

**CONDITIONAL CAUTIONING\*** - Following early implementation in Doncaster, Bournville and Lancashire since 2005, DIP is now working with the Conditional Cautioning Project Team to drive effective national roll-out. By June 2007, all police force areas were expected to have at least one BCU delivering conditional cautions and the target is for them to deliver them forcewide by 2008. South Yorkshire was the first to engage in this way.

**CHILDREN & YOUNG PEOPLE** - The interventions described in this document apply only to adults of 18 years and over. There are separate processes relating to children and young people, which are now managed under the Prevent & Deter section of the Prolific & other Priority Offender (PPO) Programme rather than under the Drug Interventions Programme.
