

## News Drug Licensing and Compliance

From 1st January 2009, the Home Office Drugs Licensing Unit will be renamed the **Home Office Drugs Licensing and Compliance Unit**.

The purpose of this is to reflect the changes currently being implemented within the unit and these will continue throughout 2009.

We will be introducing new processes for licence applications for Controlled Drugs and Precursor Chemicals.

We will also consult, where appropriate, our stakeholders and work with all our stakeholders further to improve the protection the licensing system already provides.

Further information on these changes will be published on this website as they are agreed and implemented.

Please note the contact details of the unit below:

Home Office Drugs Licensing and Compliance Unit  
4<sup>th</sup> Floor  
Peel Building  
2 Marsham Street  
London  
SW1P 4DF
